

RESIDENTIAL WALLPAPER CLEANING

Since Walls Republic has such a unique variety of wall coverings, please refer to the manufacturers guidelines or contact our Customer Service department for information on the particular wall covering you are using.

BASIC CLEANING OF YOUR WALLS REPUBLIC WALL COVERING

Due to the textural, nature of your wallpaper, there is no doubt your family and friends are going to be touching your walls. With this said, stains may appear on your wallpaper. Stains should be removed as soon as possible to avoid permanent damage.

Most of Walls Republic wallpapers are vinyl, so they are washable and scrub-able and dirt can be removed with ease. Use a soft, clean cloth, warm water and a mild soap, clean the area of the stain. Be sure to rinse off the soap from the wallpaper as to not let it sit and absorb. Blot the wallpaper dry with a lint-free towel. Do not scrub with too much force, you risk discoloring.

Do not use steel wool or powdered cleaners, or active solvent-type preparations such as nail polish remover.
